Cradle to Cradle  
Certified

## GO UNI™ – WHEN FASHION MEETS FURNITURE

Go Uni is a simple, futuristic and uni-coloured fabric with clean-cut lines and a high-tech almost industrial look. Just as haute couture fashion, Go Uni strives for perfection and offers the very best, when it comes to for example the environment, fire safety and durability.

In the world of fashion, haute couture represents the best in design, quality and tailoring. The goal is perfection, exclusivity and luxury in every detail. Made from the cutting-edge material Trevira CS and combining an innovative design with an exceptionally strong environmental profile, excellent flame-retardant properties and impressive durability, the Go Collection is haute couture for furniture. The collection encompasses three strong designs – Go Uni, Go Check and Go Couture – all of them bound for the catwalk.

### High-tech, industrial look

Go Uni is characterized by a very simple design aesthetics - a clean-cut and streamlined look in just one colour. With its slightly shiny surface, Go Uni has a high-tech almost industrial expression that provides an interesting contrast and an appealing alternative to the prevailing handcraft, back-to-nature trend.

### A wide selection of colours

With a palette of no less than 40 different colours, Go Uni can accommodate almost any colour request. The rich colour palette encompasses almost every shade and nuance - from intense, clear pastels such as mint, peach and light blue to classic white, black and navy and a selection of discreet greys. The palette also includes bright and distinctive colours such as cobalt blue, turquoise, orange, lime and red.

### Mix and match

The colours of the Go palette recur throughout the Gabriel Collection, and it is easy to mix and match Go with other Gabriel fabrics, for example the mesh fabrics, to create distinctive designs and unique combinations of diverse materials. The kinship between the three Go fabrics also opens up an almost endless range of possibilities to mix and match and create new and exciting compositions.

### Sublime properties

Just as haute couture leads the way in fashion, Go Uni is also at the forefront – not only in terms of design and aesthetics but also when it comes to sustainability, fire safety and durability. All three Go fabrics are certified in accordance with some of the most stringent environmental standards and are Cradle to Cradle™ Certified Bronze as well as Oeko-Tex and EU Ecolabel certified. In addition, the fabrics are made from Trevira CS polyester, which is inherently flame-retardant and complies with even the most rigorous fire safety requirements.

### Good reasons for choosing GO UNI™

- Clean-cut and streamlined expression
- High-tech, industrial look
- Rich colour palette - unique mix and match options
- Made from Trevira CS
- Superior fire resistance
- Wear-resistant, easy to clean and high lightfastness
- Very stretchy and highly suitable for upholstery
- Cradle to Cradle™ Certified Bronze
- Oeko-Tex and EU Ecolabel certified
