

HUSH  
STRIPE 40

## Bold stripes with a warm vibe

Fusing a wide-striped pattern with a soft felt feel, screen fabric Hush Stripe 40 adds both graphic stringency and warm, cosy vibes to all types of spaces and interiors.

Screen fabric Hush Stripe 40 is distinguished by its wide-striped 40 mm embossed pattern with a stringent, graphic expression. The fabric combines polyester screen fabric Hush with a 6 mm foam core and a jersey backing to create a soft, voluminous texture that accentuates the bold, graphic stripes and creates a visually appealing 3D effect.

### **Cosy felt with graphic twist**

With its easy-on-the-eye-design and subtle melange effect, screen fabric Hush forms the perfect background allowing the wide, embossed stripes to stand out. The fabric's felt-like texture and natural-fibre finish bring a warm, homely feel to all types of spaces and create an unusual contrast to the graphic stringency of the striped pattern.

### **Rotate the stripes**

The striped design of Hush Stripe 40 can be turned and used in any direction – horizontally, vertically or diagonally. Use the stripes to accentuate organic as well as geometric forms, and create bold, graphic statements by mixing wide-striped Hush Stripe 40 with the refined, smaller stripes of Hush Stripe 25, or with the geometric grid of Hush Square 40.

### **Muted melange colours**

The standard colour palette of Hush Stripe 40 encompasses 11 colours from graphic greys to classic and ever-popular red, blue and green. All the colours have an attractive muted look and are distinguished by a discreet melange effect.

### **Acoustic design for screens**

Hush Stripe 40 is designed specifically for use on all types of vertical surfaces such as screens, panels and room dividers. Designed for room division, the fabric offers acoustic properties and contributes to improved acoustic performance in all types of spaces and environments.
